

## Design, Synthesis, and Testing of Potent, Selective Hepsin Inhibitors via Application of an Automated Closed-Loop Optimization Platform

Shishir M. Pant, Amanda Mukonoweshuro, Bimbisar Desai, Manoj K. Ramjee, Christopher N. Selway, Gary J. Tarver, **Adrian G. Wright**, Kristian Birchall, Timothy M. Chapman, Topi A. Tervonen, and Juha Klefström  
*Journal of Medicinal Chemistry* **61** (10), 4335-4347 (2018).

## The 38th BMSS Annual Meeting, Royal Northern College of Music Manchester: 5th to 7th September 2017

**Patricia Wright**, Hannah Britt, Cris Laphorn, Christopher Whitmore  
*European Journal of Mass Spectrometry* **24** (2), 243 – 247 (2018)

## 37th British Mass Spectrometry Society Annual Meeting

**Patricia Wright** & Christine Eckers  
*Bioanalysis* **9** (5), 423-426 (2017).

## Bioanalytical Method Transfer.

**P. A. Wright** & **A.G. Wright**. *Bioanalysis* September **8** (17), 1837-1844 (2016).

## Predicting collision-induced dissociation (CID) mass spectra: understanding the role of the mobile proton in small molecule fragmentation.

**P. A. Wright**, A. Alex & F. Pullen. *Rapid Communications in Mass Spectrometry* **30** (9):1163-1175 (2016).

## Can computational chemistry be used to predict CID fragmentation of anions?

**P.A. Wright**, A. Alex & F. Pullen. *Rapid Communications in Mass Spectrometry* **29** (23) 2309–2315 (2015).

## How useful is molecular modelling in combination with ion mobility mass spectrometry for 'small molecule' ion mobility collision cross sections?

C. Laphorn, F. Pullen, B. Z. Chowdhry, **P.A. Wright**, G. Perkins & Y. Heredia.  
*Analyst* **140** (20), 6814-6823 (2015).

## Predicting collision-induced dissociation spectra: Semi-empirical calculations as a rapid and effective tool in software-aided mass spectral interpretation.

**P.A. Wright**, A. Alex & F. Pullen. *Rapid Communications in Mass Spectrometry* **28**, 1127-1143 (2014).

## Does not compute, or does it?

**P. A. Wright**. *Mass Matters* August 2014 (not peer reviewed).

## Understanding collision-induced dissociation of dofetilide: a case study in the application of density functional theory as an aid to mass spectral interpretation.

**P.A. Wright**, A. Alex & F. Pullen.  
*Analyst* **138** (22), 6869-6880 (2014).

## Rapid Discovery of a Novel Series of Abl Kinase Inhibitors by Application of an Integrated Microfluidic Synthesis and Screening Platform

Bimbisar Desai, Karen Dixon, Elizabeth Farrant, Qixing Feng, Karl R. Gibson, Willem P. van Hoorn, James Mills, Trevor Morgan, David M. Parry, Manoj K. Ramjee, Christopher N. Selway, Gary J. Tarver, Gavin Whitlock, and **Adrian G. Wright**  
*Journal of Medicinal Chemistry* **56** (7), 3033-3047 (2013)

## Integrated Synthesis and Testing of Substituted Xanthine Based DPP4 Inhibitors: Application to Drug Discovery

Werngard Czechtizky, Jüergen Dedio, Bimbisar Desai, Karen Dixon, Elizabeth Farrant, Qixing Feng, Trevor Morgan, David M. Parry, Manoj K. Ramjee, Christopher N. Selway, Thorsten Schmidt, Gary J. Tarver, and **Adrian G. Wright**  
*ACS Medicinal Chemistry Letters* **4** (8), 768-772 (2013).

## 3D thinking: computational aids for the bioanalyst.

**P.A. Wright**, A. Alex & F. Pullen. *Bioanalysis* **5** (4), 395-398 (2013).

## Development of the first sphingomyelin biomimetic stationary phase for immobilized artificial membrane (IAM) chromatography

*Dieter Verzele UGent, Frederic Lynen UGent, Mike De Vrieze, Adrian G Wright, Melissa Hanna-Brown and Patrick Sandra*  
*Chemical Communications* **48** (8), 1162-1164 (2012).

## Metabolite Identification by Mass Spectrometry: Forty Years of Evolution.

**P.A. Wright**. *Xenobiotica*, **41** (8), 670-686 (2011).

## Looking back through the MIST: A perspective of evolving strategies and key focus areas for metabolite safety analysis.

A.N.R. Nedderman & **P.A. Wright**. *Bioanalysis*, **2** (7), 1235-1248 (2010).

## Metabolism, Pharmacokinetics and Toxicity of Functional Groups Impact of the Building Blocks of Medicinal Chemistry on ADMET. Chapter 4: Primary, Secondary and Tertiary Amines and their Isosters

Published 2010. RSC Publications Edited by Dennis A. Smith  
**Using Density Functional Theory to Rationalise the Mass Spectral Fragmentation of Maraviroc and its Metabolites.**  
**P.A. Wright**, A. Alex, T. Nyaruwata, T. Parsons & Frank Pullen.  
*Rapid Communications in Mass Spectrometry* **24**, 1025-1031 (2010).

## A Rapid Methodology for the Characterization of Dialkyl Tertiary Amine-N-Oxide Metabolites Using Structurally Dependent Dissociation Pathways and Reconstructed Ion Current Chromatograms.

S.W. Holman, **P.A. Wright** & G.J. Langley. *Analytical Chemistry* **82** (6), 2347-2354 (2010).

## Evidence for site-specific intra-ionic hydrogen/deuterium exchange in the low-energy collision-induced dissociation product ion spectra of protonated small molecules generated by electrospray ionisation.

S.W. Holman, **P.A. Wright**, N.J. Well & G.J. Langley. *Journal Mass Spectrometry* **45** (4), 347-357 (2010).

## Thermoresponsive Poly(N-vinylcaprolactam) as Stationary Phase for Aqueous and Green Liquid Chromatography.

B. Miserez, F. Lynen, **A. Wright**, M. Euerby, & P. Sandra  
*Chromatographia* **71**(1-2), 1-6 (2010).

## A Holistic Strategy for Characterizing the Safety of Metabolites through Drug Discovery and Development.

D. Walker, J. Brady, D. Dalvie, J. Davis, M. Dowty, J.N. Duncan, A. Nedderman, R.S. Obach & **P.A. Wright**. *Chemical Research in Toxicology* **22**, 1653-1662 (2009).

## Can density functional theory (DFT) be used as an aid to a deeper understanding of tandem mass spectrometric fragmentation pathways?

A. Alex, S. Harvey, T. Parsons, F.S. Pullen, **P.A. Wright** & J. Riley.  
*Rapid Communications in Mass Spectrometry* **23** (17), 2619-2627 (2009).

## High-throughput approaches towards the definitive identification of pharmaceutical drug metabolites. 2. An example of how unexpected dissociation behaviour could preclude correct assignment of sites of metabolism.

S.W. Holman, **P.A. Wright** & G.J. Langley.  
*Rapid Communications in Mass Spectrometry*, **23** (13), 2017-2025 (2009).

## Metabolite quantitation: detector technology and MIST implications.

**P.A. Wright**, Z. Miao & B. Shilliday. *Bioanalysis* **1** (4), 831-845, (2009).

**SAR of a series of inhaled A2a antagonists and comparison of inhaled pharmacokinetic in a preclinical model with clinical pharmacokinetic data.**

S.J. Mantell, P.T. Stephenson, S.M. Monaghan, G.N. Maw, M.A. Trevethick, M. Yeadon, D.K. Walker, M.D. Selby, D.V. Batchelor, S. Rozze, H. Chavarcohe, A. Lemaitre, K.N. Wright, L. Whitlock, E.F. Stuart, **P.A. Wright** & F. Macintyre. *Bioorganic and Medicinal Chemistry Letters*, **19** (15), 4471-4475 (2009).

**High-throughput approaches towards the definitive identification of pharmaceutical drug metabolites. 1. Evidence for an ortho effect on the fragmentation of 4-benzenesulfinyl-3-methylphenylamine using electrospray ionisation mass spectrometry.**

S.W. Holman, **P.A. Wright** & G.J. Langley. *Rapid Communications in Mass Spectrometry*, **22** (15), 2355-2365 (2008).

**Application of parallel gradient high performance liquid chromatography with ultra-violet, evaporative light scattering and electrospray mass spectrometric detection for the quantitative quality control of the compound file to support pharmaceutical discovery**

Anthony W. Squibb, Mark R. Taylor, Barry L. Parnas, Gareth Williams, Richard Girdler, Peter Waghorn, **Adrian G. Wright**, Frank S. Pullen, *Journal of Chromatography A* **1189** (1-2), 101-108 (2008)
